# Django Database Modeling II

PART1 | Django Modeling

PART2 | CreateSuperUser

PART3 | DBeaver

# Database Modeling

1.

Django  
DB Modeling

```
from django.db import models

# Create your models here.

class PayPlan(models.Model):
    name = models.CharField(max_length=20)
    price = models.IntegerField()
    updated_at = models.DateTimeField(auto_now=True)
    created_at = models.DateTimeField(auto_now_add=True)
```

## CreateSuperUser

2.

Django  
DB Modeling

앱의 첫 슈퍼 유저 사용자를 만드는 방법

```
python manage.py createsuperuser
```

## DBeaver

3.

Django  
DB Modeling

Database Management Tool. <https://dbeaver.io/>
